

# From Refugee to PhD: Building the Life You Want

Dr. **Mihaela Jekic** learned at an early age what really matters in life. Her family lost all their possessions in the Bosnian civil war and became refugees. In this inspiring talk, Mihaela shares personal stories about the lessons she learned growing up as a refugee in Bosnia and immigrating to America. She will inspire you to develop resilience in the face of adversity, step out of your comfort zone, and embrace new experiences.
